Prohibited to delete/modify the template or remove explanations in each point.

**A. RESEARCH SUMMARY:** Provide a concise overview of the research background, objectives, stages of research methodology, targeted outcomes, a description of the research framework, and the obtained research results in alignment with the year of research implementation.

.....

.....

.....

.....

**B. KEYWORDS:** Write a maximum of 5 keywords. Use semicolons (;) as separators.

.....

.....

**C. RESULTS OF RESEARCH IMPLEMENTATION/UPDATAE:** Briefly describe the achievements of the research implementation according to the year of research. The presentation should include data, analysis results, and the outcomes achieved (mandatory and/or additional). All reported results or achievements should be related to the stages of research implementation as planned in the proposal. Data presentation can include images, tables, graphs, and similar elements, with analysis supported by relevant and up-to-date primary literature.

.....

.....

.....

.....

**D. RESEARCH FINDINGS AND OUTPUTS:** Write down the type, identity, and status of the achievement of each mandatory outcome and any additional outcomes promised. Types of outcomes may include publications, intellectual property acquisition, test results, or other outcomes pledged in the proposal. The description of the outcome status should be supported by evidence of progress in achieving the outcomes

as promised.

.....  
 .....  
 .....  
 .....

**E. EACH MEMBER ROLE:** Please complete the table below by providing detailed information on each member’s role and contributions in the WAEJUC Joint Research team. Each member is required to clearly describe their specific responsibilities and contributions to the project. All information should reflect actual implementation and be supported by relevant evidence where applicable.

No	Name	Institution	Role in Project	Key Responsibilities	Description of Contribution

**F. OBSTACLES TO IMPLEMENTING RESEARCH:** Describe the difficulties or obstacles faced during the research process and achieving the promised outcomes, including explanations if the research implementation and research outcomes do not align with what was planned or promised.

.....  
 .....  
 .....  
 .....

**G. FORWARD PLANS:** Describe the research plan for the next year based on the achieved outcome indicators, the planned realization of promised mandatory outcomes, and any additional outcomes (if existent) for the upcoming year, along with the overall research roadmap. In this section, it is allowed to supplement explanations for each stage in the planned methodology, including a schedule related to the strategy for achieving the outcomes as promised in the proposal. If necessary, explanations can also be complemented with images, tables, diagrams, and relevant references. If the progress report pertains to the final year of implementation, this section can articulate plans for completing targets that have not been achieved.

.....  
 .....  
 .....  
 .....

**H. REFERENCES:** Arrange the bibliography based on a numerical system according to the order of citation. Only references cited in the progress report should be included in the bibliography.
